We offer...

Custom Design

Choose from our extensive art collection, or let us create a custom design such as showcasing your organization's history. Our semi-permanent murals are professionally installed for maximum durability, but easy to remove when you're ready for an update.

Magnetic Murals

A variation on our standard murals, these magnetic murals are designed for frequent changes. Initially, our installation experts will prime your walls with magnetic-receptive paint and install our factory-made, magnetic mural prints. Thereafter, you can easily remove the existing mural and replace it with a new mural without any professional assistance. Celebrate the holidays, highlight current promotions, or simply provide a change of scenery. We'll show you how to replace your murals quickly and effortlessly, so your staff can change the images with the seasons. In addition, the Magnetic Mural can be produced as a dry erase surface with or without a graphic.

Frameless Acrylic

Let us work with you to create custom collages printed on acrylic panels for an ultra-modern spin on the wall mural.

Office supplies don't have to be boring.

We realize that after your artwork is installed, you still need those workplace essentials that keep things running smoothly on a day-to-day basis. Our Custom-framed Fabric-covered Bulletin Boards and Display Cabinets combine form and function, adding visual appeal to your everyday communications.

We've designed a product that complements the art around it:
